

GREATLINK

MULTI-SECTOR INCOME FUND

Why Invest in the Fund now?

Potentially Attractive Yield

The Underlying Fund's 6.99% YTM provides increased return potential going forward.

Diversified Approach

Flexibility to **access multiple sources of return** has enabled it to outperform most major fixed income indices over longer time periods.

Capital Preservation

Consistent income can help build returns over time, with capital gain potential when markets recover. The Underlying Fund is **built for resilience** under many scenarios for rates & spreads.

Diversified Sources of Income: Focus on Quality and Liquidity

Higher Yielding Assets

- **Selective in high yield credit**, with a focus on senior bonds in capital structure.
- **High conviction in non-agency mortgage**, where we see attractive risk-adjusted yield levels and strong credit fundamentals. We expect sector resilience through various economic scenarios.

Higher Quality Assets

- **Maintain exposure to U.S. agency MBS** which potentially offers a 'safe spread' over Treasuries.
- **Cautious on generic credit but opportunistic in senior financials**, where fundamentals are strong. In addition, a preference for **defensive, less cyclical sectors**, such as utilities, telecommunications and healthcare.

As of 31 May 2024. Source: PIMCO.

Gross Market Value (GMV%) is calculated differently than Percent Market Value (PMV%), which is the Fund's official sector reporting. GMV% does not include the notional value of swap exposures and excludes reverse repos from its calculation. "Government Related" includes nominal and inflation-protected Treasuries, agencies and FDIC-guaranteed and government-guaranteed corporate securities from the U.S., Japan, United Kingdom, Australia, Canada, and European Union. "Government-Related" excludes any interest rate linked derivatives used to manage the fund's duration exposure in the United States. Derivative instruments includes interest rate swaps, futures, and swap options. "ABS" contains traditional ABS, CLOs and CDOs. "Other" contains municipal securities and preferred stock or common stock obtained through restructuring opportunities. Prior to October 2023 sector exposures were reported in terms of percent bond exposure (PBE%), which is defined as the market exposure inclusive of notional values. PBE% shows exposure to a given sector divided by the total assets of the Fund and does not utilize a derivative offset bucket like PMV%. Additionally, prior to October 2023, the "Government-Related" bucket excluded any interest rate linked derivatives used to manage our duration exposure in the following countries: the U.S., Japan, United Kingdom, Australia, Canada, and European Union (ex-peripheral countries defined as Italy, Spain, Cyprus, Malta, Portugal, and Greece). **Portfolio structure is subject to change without notice and may not be representative of current or future allocations.** "Safe Spread" is defined as sectors that we believe are most likely to withstand the vicissitudes of a wide range of possible economic scenarios. All investments contain risk and may lose value.

INCOME FUND PHILOSOPHY

PERFORMANCE OF THE FUND AGAINST BENCHMARK

as at 31 May 2024

	3 months	6 months	1 year	3 years	5 years	Since Inception**
PIMCO Funds: GIS plc - Income Fund - INST SGD Hedged (Underlying fund of GreatLink Multi-Sector Income Fund)	0.95%	3.63%	6.30%	0.19%	2.30%	3.69%
Benchmark	-0.41%	1.18%	-0.55%	-3.97%	-0.79%	0.70%

The information in relation to the benchmark is provided for context and illustration only. The fund is an actively managed ILP Sub-Fund. It is not managed in reference to a benchmark.

Source: PIMCO. Performance figures are calculated in SGD on a bid-bid basis, with all dividends and distributions reinvested, taking into account all charges which would have been payable upon such reinvestment. The performance of the PIMCO GIS Income Fund Inst SGD Hedged is a proxy for the performance of the GreatLink Multi-Sector Income Fund. The actual performance of the GreatLink Multi-Sector Income Fund may deviate from this proxy.

* PIMCO GIS Income Fund measures its performance against the Bloomberg U.S. Aggregate Index. However, the fund does not track nor seeks to outperform the index. As a benchmark agnostic strategy, it instead focuses on generating high current income, irrespective of the performance or composition of the index.

** PIMCO GIS Income Fund Inst SGD Hedged-Income is inception on 16/12/2015.

The benchmark is the Bloomberg U.S. Aggregate (SGD Hedged) Index.
