CEO'S MESSAGE

Dato Koh Yaw Hui
Chief Executive Officer

Dear Investment-Linked Policy Owner

We are pleased to present the 2023 Annual Report of Great Eastern's Unit Funds ("UFs") consisting of Dana Restu (DR), Dana Sejati (DS), Lion Balanced Fund (LBF), Lion Fixed Income Fund (LFIF), Lion Growth Fund (LGF), Lion Progressive Fund (LPF), Lion Strategic Fund (LSF), Lion Advanced Strategic Fund (LASF), Lion Small Mid Cap Fund (LSMCF), Lion US-i Fund (USI), Lion UK-i Fund (UKI), Lion AU-i Fund (AUI), Lion Asia Pac Fund (LAPF), Lion Enhanced Equity Fund (LEEF), Dana Gemilang (DG), and Lion ASEAN Fund (LAF) for the year ended 31 December 2023.

CEO'S MESSAGE

Despite the challenging market environment, all our conventional flagship equity funds managed to post positive returns in 2023. The best performing fund was the LSMCF which posted a return of +13.3%. Other funds which registered commendable performance in 2023 were LGF, LBF, LPF, LSF, LEEF and LASF with returns of +7.0%, +5.2%, +5.1%, +4.1%, +2.2%, and +0.8% respectively. The LAF posted a -2.0% return in a year where ASEAN markets struggled. Within the Shariah funds, DG posted a +2.4% whilst returns for DR was +1.7%.

Performance of the Malaysian equity market was mixed with the small-mid cap outperforming the larger caps. For 2023, the FBM KLCI posted a -2.7% return, while the FBM 100, FBM 70, and FBM Small Cap Index fared better posting +0.6%, +12.3% and +9.6% respectively. Net foreign outflows of RM2.3bil and foreign shareholding were at 19.5%, the lowest on record.

Global equity markets reacted to the collapse of regional banks in the US and the bailout of Credit Suisse in March, with swift action taken to prevent a fallout. As the Federal Reserve kept up its resolve to fight inflation through interest rate hikes, the stronger US Dollar had a negative impact on Asian currencies and the Ringgit closed the year at RM3.59, weakening 4.2%.

The result of the state elections held in August remained status quo. Market sentiment was boosted after the Prime Minister made several announcements on initiatives aimed at catalysing economic growth via the National Energy Transition Roadmap (NETR), New Industrial Master Plan 2030, and the mid-term review of the 12th Malaysia Plan.

The fixed income funds recorded strong positive returns in 2023. LFIF returned 6.6% against 12-month conventional fixed deposit benchmark of 2.9%, while DS returned 7.8% against 12-month Mudharabah deposit return of 2.4%. Over a 5-year and 10-year period, LFIF registered annualised return of 4.2% and 5.3% respectively, while DS registered 4.7% and 5.3% respectively.

2023 was positive for bond markets globally, largely on expectation that global rate hike cycle was near its end, albeit with heightened volatility. Global bond markets entered the year pricing for a recession following aggressive interest rate hikes in 2022. As the United States ("U.S.") and global economic growth remained more resilient

than expected, with inflation yet to reach the targeted levels especially for the advanced economies, global rate hike cycle extended, leading to re-pricing of global bond markets on higher-for-longer rates narrative. The global bond yields declined towards year-end in anticipation of central banks pivoting to rate cuts as early as 2024 with inflation declining further while growth moderated, following the cumulative past rate hikes. The U.S. Federal Reserve hiked its policy rate to 5.50% in Jul23, a total of 525 bps since Mar22 to curb inflation from spiralling. Meanwhile, Bank Negara Malaysia ("BNM") maintained the Overnight Policy Rate ("OPR") at 3.00% after the 25 bps hike in May23 given subdued domestic inflationary pressure on the back of subsidy and price controls. In tandem with global trend, Malaysian Government Securities ("MGS") yields declined by 20 to 44 bps in 2023 with long-term MGS yield declining more than short-term MGS yields. Foreign flows to Malaysian bond market turned positive in 2023 with a net RM16.9 bil purchase of MGS (from a net RM3.5 bil sale of MGS in 2022). Nevertheless, the Ringgit weakened by 4.2% against the U.S. Dollar in 2023 on widening rate differential between the U.S. and Malaysia.

For 2024, while global economic growth has been stronger than expected in 2023, moderation is evident in recent economic data on the back of decelerating global trades and tighter financial/credit conditions, following cumulative rate hikes since 2022. On the domestic front, growth in 2024 will continue to be driven mainly by resilient domestic expenditure as steady employment and wage growth remain supportive of household spending. Meanwhile, domestic inflation is largely expected to be manageable, however, uncertainty remains on the effect of subsidy rationalisation and price controls removal. Resilient domestic growth outlook and potentially gradual subsidy rationalisation to keep inflationary pressure in check may provide justification for BNM to maintain the OPR at 3%, despite expectation of other central banks especially the advanced economies pivoting to easing monetary cycle in 2024.

As Malaysia continues its transition to the next interest rate cycle in accordance to the domestic idiosyncrasies, external factors including international trade cycles, geopolitical tensions, and global yield movements, will remain important drivers to the domestic economy. We continue to Reach for Great by delivering sustainable long term returns.

Dato Koh Yaw Hui
Chief Executive Officer

FUNDS OBJECTIVES

1. DANA GEMILANG*

A fund where 80% to 100% of the investments are in equities. This fund seeks to achieve medium to long-term capital appreciation. Although the fund invests mainly in Malaysia (50% to 100%), it may also partially invest in companies that have significant business operations in Singapore (up to 25%) and Greater China (Mainland China, Hong Kong, Macau and Taiwan) (up to 25%), if and when necessary, to enhance the fund's returns. The fund only invests in Shariah-approved securities.

2. DANA RESTU*

A fund where 70% to 100% of the investment instruments are equities, which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation. Dana Restu invests in Shariah-approved securities.

3. DANA SEJATI*

A fund which invests in Shariah approved fixed income securities, for example government and corporate sukuk as well as Islamic money market papers/deposits. This fund seeks to provide consistent return at low levels of volatility. Although the fund invests mainly in Malaysia (40% to 100%), it may also partially invest in foreign Shariah approved fixed income securities (up to 50%), to enhance the fund's returns.

4. LION BALANCED FUND

A fund which invests in a mixture of equities (ranging from 40% to 60%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate level of volatility.

5. LION FIXED INCOME FUND

A fund which invests in fixed income securities, for example government and corporate bonds as well as cash and cash equivalents. This fund seeks to provide consistent return at low levels of volatility. Although the fund invests mainly in Malaysia (40% to 100%), it may also partially invest in foreign fixed income securities (up to 50%), to enhance the fund's returns.

6. LION GROWTH FUND

A fund where 70% to 100% of the investment instruments are equities, which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

7. LION PROGRESSIVE FUND

A fund which invests in a mixture of equities (ranging from 50% to 90%) and fixed income securities. This fund seeks to provide medium to long-term capital appreciation, with a moderate-to-high level of volatility.

8. LION STRATEGIC FUND

A fund which invests in a mixture of equities, fixed income securities and money market instruments. There is flexibility in asset allocation as this fund may invest solely in fixed income securities or equities. This fund seeks to provide medium to long-term capital appreciation, with a moderate level of volatility.

9. LION US-i FUND

A fund which is passively managed and aims to track the performance of S&P500 over the medium to long term (indexing strategy), which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

10. LION UK-i FUND

A fund which is passively managed and aims to track the performance of FTSE100 over the medium to long term (indexing strategy), which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

11. LION AU-i FUND

A fund which is passively managed and aims to track the performance of S&P/ASX200 over the medium to long term (indexing strategy), which may be volatile in the short term. This fund seeks to provide medium to long-term capital appreciation.

FUNDS OBJECTIVES

12. LION ASIA PAC FUND

A feeder fund that aims to achieve long-term capital appreciation by investing primarily in the equities markets of the Asia Pacific (ex-Japan) region. The Fund invests in emerging and developed markets. There is no target industry or sector.

13. LION ENHANCED EQUITY FUND

A fund where 80% to 100% of the investments are in equities. This fund seeks to achieve medium to long term capital appreciation. Although the fund invests mainly in Malaysia (50% to 100%), it may also partially invest in companies that have significant business operations in Singapore (up to 25%) and Greater China (Mainland China, Hong Kong, Macau, and Taiwan) (up to 25%), if and when necessary, to enhance the fund's returns.

14. LION SMALL MID CAP FUND

This fund seeks to achieve medium to long-term capital appreciation, investing in Malaysian Small and Medium Market Capitalisation ("Small Mid Cap") equities. It may partially invest in foreign Small Mid Cap equities (Asia Pacific excluding Japan region) if and when necessary, to enhance the fund's returns.

15. LION ADVANCED STRATEGIC FUND

A fund which invests in a mixture of equities, fixed income securities and money market instruments in Malaysia and companies that have significant business operations in Asia. There is flexibility in asset allocation as this fund may invest solely in fixed income securities or equities. Collective investment schemes such as unit trusts, mutual funds and exchange-traded funds which invest in such underlying asset classes may be considered. The fund seeks to maximize capital appreciation over the medium to long-term while reducing risks and/or enhancing returns through timely and dynamic switching of asset classes in different markets at any given point in time.

16. LION ASEAN FUND

A fund where 80% to 100% of the investments are in equities. The Fund seeks to maximise capital appreciation over the medium to long-term in ASEAN markets which includes Malaysia, Singapore, Indonesia, Thailand, and Philippines to achieve a well-diversified portfolio. The balance of the fund's NAV will be invested in domestic short-term money market instruments including cash. Collective investment schemes such as unit trusts, mutual funds and exchange-traded funds which invest in such underlying asset classes may be considered.

NOTE:

- * Although this fund invests in Shariah-approved securities, the investment-linked insurance plan that utilises this fund is not classified as a Shariah-compliant product.

INVESTMENT REVIEW AND OUTLOOK

2023 EQUITY MARKET REVIEW

After a very challenging 2022 whereby tightening financial conditions, high inflation, political uncertainty and slowing global growth rattled investor sentiment, expectations were higher that 2023 would be better. The re-opening of China's borders at the start of the year lent some optimism that the engine of the second largest economy in the world would provide good support to global growth post pandemic. The stability of the global banking sector was tested in early March after the collapse of Silicon Valley Bank and Signature Bank in the US, which was followed by the state-backed rescue of Credit Suisse, with action taken swiftly to prevent any contagion. Aggressive interest rate hikes by global central banks continued in 2023 in a bid to bring down inflation with the Federal Reserve leading the way with 100bps of rate increases. The Chinese economy struggled throughout the year as property was a drag on the economy and economic growth remained sluggish. Sentiment towards the Chinese equity market was also negative as local and foreign funds sold aggressively in reaction to piece-meal efforts by the Chinese government to provide forthcoming economic stimulus. The strong US Dollar also had a negative bearing on Asian currencies with subsequent outflows from most Asian equity markets. In North Asia, Hong Kong and China markets were the worst performers with the Hang Seng Index and Hang Seng China Enterprise Index posting returns of -8.8% and -14.0% respectively.

Domestically the state elections for Selangor, Negeri Sembilan, Penang, Kelantan, Terengganu, and Kedah in August saw the political status quo retained as the Pakatan Harapan-Barisan Nasional coalition formed the governments in the west coast states of Penang, Selangor, and Negeri Sembilan. Prime Minister Anwar launched the National Energy Transition Roadmap (NETR), highlighting six energy transition levers and ten flagship catalyst projects to place Malaysia on the path to a low-carbon country. The FBM KLCI ended the year with a -2.7% return. Foreign flows were generally seen throughout most of 2023, with outflows of RM2.3 bil for the full year for the Malaysia equity market.

2023 FIXED INCOME MARKET REVIEW

2023 was a positive bond year globally, largely on expectation that global rate hike cycle was near its end, albeit with heightened volatility. Global bond markets entered the year pricing for a recession following aggressive

interest rate hikes in 2022. As the U.S. and global economic growth remained more resilient than expected, with inflation yet to reach the targeted levels especially for the advanced economies, global rate hike cycle extended, leading to re-pricing of global bond markets on higher-for-longer rates narrative. Nevertheless, global bond yields declined towards year-end on anticipation of central banks pivoting to rate cuts as early as 2024 with inflation declining further while growth moderated following the cumulative past rate hikes.

The U.S. Federal Reserve ("Fed") hiked its policy rate to 5.50% in Jul23, a total of 525 bps since Mar22 to curb inflation from spiralling. 10-year U.S. Treasury ("UST") yield, a beacon for global bond markets ended the year at 3.88%, almost at where it started after a massive swing from the lowest level of the year at 3.25% in Apr23 amidst U.S. regional banks' liquidity crisis to the peak of the year at 5.00% in Oct23 triggered by better-than-expected U.S. economic data and higher UST supply.

Meanwhile, Bank Negara Malaysia ("BNM") maintained the Overnight Policy Rate ("OPR") at 3.00% after the 25 bps hike in May23 given subdued domestic inflationary pressure on the back of subsidy and price controls. In tandem with global trend, Malaysian Government Securities ("MGS") yields declined by 20 to 44 bps in 2023 with long-term MGS yield declining more than short-term MGS yields. Foreign flows to Malaysian bond market turned positive in 2023 with a net RM16.9 bil purchase of MGS (from a net RM3.5 bil sale of MGS in 2022). Nevertheless, the Ringgit weakened by 4.1% against the U.S. Dollar in 2023 as widening rate differential between the U.S and Malaysia extended the U.S. Dollar strength against Ringgit.

2024 EQUITY MARKET OUTLOOK

Global growth continues to track below trend, with conditions stabilising. Manufacturing remains in contraction, and improvements in the global tech cycle have not yet translated into a broader recovery in the sector. Services momentum by contrast, rebounded at the end of 2023 as solid labour markets continue to underpin demand. Inflation has fallen further led by disinflationary global goods prices and a favourable energy base effect. While this is encouraging and means that central banks are likely to be done tightening, further progress on services inflation will likely be required before the rate cutting cycle can begin.

INVESTMENT REVIEW AND OUTLOOK

The Federal Reserve's latest signals of forthcoming easing have ignited hope that rates have finally peaked and that the US economy is headed for a soft landing, characterised by falling inflation, a robust labour market, and sustained growth as interest rate headwinds will soon ease.

Sentiment versus Chinese equities has remained negative, leaving scope to the upside should convincing policy measures to support the economy and particularly the property sector be announced. Valuations are attractive with price-to-earnings and price-to-book ratios currently at their lowest in ten years. Investors will be hoping to see more concrete action to reorganise the real estate market and more favourable policy announcements.

In ASEAN, inflation is falling across the region reflecting weaker, though not collapsing growth. With the Fed signalling potential easing ahead, depreciation pressure on regional currencies is easing, allowing regional central banks to maintain their policy rates with rate cuts likely once the Fed initiates its first rate cut. The outlook for ASEAN equities should improve further as the headwinds stemming from the strength of the US dollar subside, while stock valuations appear attractive. For Malaysia, it will be a year of execution of the macro blueprints launched in 2023, as well as a year of delivery especially in fiscal reforms to bring the country's balance sheet back on stronger footing.

2024 FIXED INCOME MARKET OUTLOOK

Global growth is projected to weaken to +2.7% in 2024 from earlier estimate of +2.9%, according to the OECD, an inter-governmental body. While global economic growth has been stronger than expected in 2023, moderation is evident in recent economic data on the back of decelerating global trades and tighter financial/credit conditions, following cumulative rate hikes since 2022. While central banks are mandated to prevent economies from deteriorating excessively as a result of the potentially overly restrictive monetary policy, in the fight to curb inflation, the timing of

next rate cut cycle remain highly subject to the eventual growth trajectory and inflation prints, which will continue to be clouded by the on-going wars in Russia/Ukraine, Middle East, and economic tensions between the world biggest economies, the U.S. and China.

On the domestic front, the Malaysian economy is projected to expand by around 4% in 2023 and 4%-5% in 2024. Growth in 2024 will continue to be driven mainly by resilient domestic expenditure as steady employment and wage growth remain supportive of household spending. Expected recovery in Electrical and Electronics (E&E) exports and tourism activity, with continuation and execution of some mega infrastructure projects announced in 2022/2023, should lend some support to growth. Meanwhile, headline inflation has been declining and is expected to average between 2.5% and 3.0% in 2023. Going into 2024, while inflation is largely expected to be manageable, uncertainty remains on the effects of subsidy rationalisation and price controls removal. With reduction in subsidies, Malaysia's fiscal position is projected to improve to 4.3% deficit in 2024, from 5.0% deficit estimated for 2023, though international rating agencies will continue to scrutinise Malaysia's continual fiscal commitment, with further revenue diversification on top of the political situation under the current unity government in their next review of Malaysia's sovereign rating.

Resilient domestic growth outlook and potentially gradual subsidy rationalisation to keep inflationary pressure in check may provide justification for BNM to maintain the OPR at 3%, despite expectation of other central banks especially the advanced economies pivoting to easing monetary cycle in 2024. As Malaysian bond market continues to transition to the next interest rate cycle in accordance to the domestic idiosyncrasies, external factors including international trade cycles, geopolitical tensions and global yield movements, will remain important drivers to the domestic economy as well as the local bond market.

Notes to the Financial Information

As at 31 December 2023

1. THE MANAGER AND ITS PRINCIPAL ACTIVITIES

Dana Gemilang, Dana Restu, Dana Sejati, Lion Balanced Fund, Lion Fixed Income Fund, Lion Growth Fund, Lion Progressive Fund, Lion Strategic Fund, Lion US-i Fund, Lion UK-i Fund, Lion AU-i Fund, Lion Asia Pac Fund, Lion Enhanced Equity Fund, Lion Small Mid Cap Fund, Lion Advanced Strategic Fund and Lion ASEAN Fund (collectively referred to as “the Funds”) are managed by Great Eastern Life Assurance (Malaysia) Berhad (“the Manager”). The Manager is a public limited liability company, incorporated and domiciled in Malaysia and licensed under the Financial Services Act, 2013. Its principal activity is the underwriting of life insurance business including investment-linked business.

2. BASIS OF PREPARATION

The financial information have been prepared in accordance with the accounting policies described in Note 3 and the Guidelines on Investment-linked Insurance/Takaful Business issued by Bank Negara Malaysia (“BNM”).

The financial information of the Funds have been prepared on a historical cost basis except as disclosed in the significant accounting policies below.

The financial information are presented in Ringgit Malaysia (“RM”).

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES

a. Other Revenue Recognition

Interest income is recognised on a time proportion basis that reflects the effective yield of the asset.

Dividend income is recognised when the right to receive payment is established.

All sales of investments are recognised on their trade dates i.e., the date that the Funds commit to sell the assets. Gains or losses arising from the sale of investments are calculated as the difference between net sales proceeds and the original or carrying amount and are credited or charged to the Statements of Income and Expenditure.

b. Investments and Financial Assets

Initial Recognition and Measurement

Financial assets are recognised when, and only when, the Funds become a party to the contractual provisions of the financial assets. The Funds determine the classification of its financial assets and liabilities at initial recognition.

At initial recognition, the Funds measure a financial asset at its fair value, plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs for financial assets carried at fair value through profit or loss are recognised as expense in the Statements of Income and Expenditure.

Regular way purchase or sale of a financial asset

All regular way purchases and sales of financial assets are recognised or derecognised on trade date i.e., the date that the Funds commit to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

Notes to the Financial Information

As at 31 December 2023

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

b. Investments and Financial Assets (continued)

Initial Recognition and Measurement (continued)

Classification

On initial recognition, a financial asset is classified as measured at Amortised Cost (“AC”) or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as measured at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are measured as FVTPL.

Business model assessment

The Funds assess the objective of the business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice;
- How the performance of the portfolio is evaluated and reported to management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of the business are compensated; and
- The frequency, volume and timing of sales in prior years, the reasons for such sales and expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Funds’ stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed, and whose performance is evaluated on a fair value basis, are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect cash flows and to sell financial assets.

The business model assessment is based on reasonably expected scenarios without taking “worst case” or “stress case” scenarios into account. If the cash flows after initial recognition are realised in a way that is different from the Funds’ original expectations, the Funds do not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

Notes to the Financial Information

As at 31 December 2023

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

b. Investments and Financial Assets (continued)

Initial Recognition and Measurement (continued)

Assessment whether contractual cash flows are solely payments of principal and interest (continued)

In assessing whether the contractual cash flows are solely payments of principal and interest, the Funds consider the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Funds consider the following key aspects:

- Contingent events that would change the amount and timing of cash flows;
- Leverage features;
- Prepayment and extension terms;
- Terms that limit the Funds' claim to cash flows from specified assets; and
- Features that modify consideration of the time value of money, credit risk, other basic lending risks and costs associated with the principal amount outstanding.

Subsequent measurement

I Debt Instruments

Debt instruments are measured at FVTPL in accordance to the Funds' business model and investment mandate. Any gains or losses from changes in fair value are recognised in Statements of Income and Expenditure. Transaction costs are recognised in the Statements of Income and Expenditure as incurred.

Fair value changes of financial assets at FVTPL are analysed between change resulting from foreign currency fluctuation and other fair value changes. Foreign currency fluctuation and other fair value changes are included under foreign exchange gain/(loss) and fair value gain/(loss) in the Statements of Income and Expenditure respectively.

II Equity Instruments

The Funds subsequently measure all equity instruments at FVTPL. Changes in fair value of financial assets at FVTPL are recognised in Statements of Income and Expenditure.

III Derivatives and Hedging Activities

The Funds apply economic hedge for currency and foreign exchange risks involving derivatives such as forward currency contracts. All derivatives are carried as financial asset when the fair value is positive and as financial liabilities when the fair value is negative.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value. Fair value adjustments and realised gains and losses are recognised in the Statements of Income and Expenditure.

Notes to the Financial Information

As at 31 December 2023

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

b. Investments and Financial Assets (continued)

Subsequent measurement (continued)

IV Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

These investments are initially recognised at cost, being the fair value of the consideration paid for the acquisition of the investment. All transaction costs directly attributable to the acquisition are also included in the cost of the investment.

After initial measurement, receivables are measured at amortised cost, using the effective yield method, less allowance for impairment. Gains and losses are recognised in the Statements of Income and Expenditure when the assets are derecognised or impaired, as well as through the amortisation process.

c. Fair value of Financial Assets

The fair value of financial assets that are actively traded in organised financial markets is determined by reference to quoted market prices at the date of Statements of Assets and Liabilities.

The fair value for investments in quoted unit and property trusts is determined by reference to published Net Asset Values.

For financial instruments where there is no active market such as unquoted fixed income securities i.e., unquoted bonds, fair value is obtained from Bond Pricing Agency Malaysia Sdn. Bhd. ("BPAM") while for foreign bonds, fair value is obtained from Bloomberg.

The fair value of floating rate and over-night deposits with financial institutions is its carrying value. The carrying value is the cost of the deposit/placement.

d. Derecognition of Financial Assets

A financial asset is derecognised when:

- i. The contractual right to receive cash flows from the financial asset has expired; or
- ii. The Funds have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flow in full without material delay to a third party under a 'pass through' arrangement and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Funds have transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Funds' continuous involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Funds could be required to repay.

Notes to the Financial Information

As at 31 December 2023

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

d. Derecognition of Financial Assets (continued)

On derecognition of a financial asset in its entirety, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of asset derecognised) and the sum of (a) the consideration received (including any new asset obtained less any new liability assumed) and (b) any cumulative gain or loss that has been recognised directly in equity is recognised in the Statements of Income and Expenditure.

e. Impairment of Financial Assets

The Funds recognise an allowance for expected credit losses (“ECLs”) for all financial assets not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Funds expect to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Funds consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Funds’ historical experience and informed credit assessment including forward-looking information.

At each reporting date, the Funds assess whether financial assets carried at amortised cost are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

For other receivables, these are individually determined to be impaired at the reporting date if these debtors are in significant financial difficulties and have defaulted on payments. These receivables are not secured by any collateral or credit enhancements.

f. Other Receivables

Other receivables are non-derivative financial assets with fixed or determinable payments. These include balances due from brokers and other investment receivables. Receivables are recognised initially at fair value. Subsequent to initial recognition, receivables are measured at amortised cost, using the effective interest method. Loss allowance is measured at an amount equal to lifetime expected credit losses with the impairment loss recognised in the Statements of Income and Expenditure.

g. Financial Liabilities

Financial liabilities are recognised in the Statements of Assets and Liabilities when a fund becomes a party to the contractual obligations of the financial instrument.

Financial liabilities are recognised when due and measured on initial recognition at the fair value of the consideration received plus directly attributable transaction costs. Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective yield method, except for derivatives, which are measured at fair value.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or has expired. Gains and losses are recognised in the Statements of Income and Expenditure.

Notes to the Financial Information

As at 31 December 2023

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

h. Other Payables

Other payables are recognised initially at fair value plus directly attributable transaction costs and is subsequently measured at amortised cost using the effective interest method.

Payables are derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in the Statements of Income and Expenditure when the liabilities are derecognised, and through the amortisation process.

i. Income Tax

Income tax on the profit or loss for the year comprises current and deferred tax. Current tax is the expected amount of income taxes payable in respect of the taxable profit/surplus for the year and is measured using the tax rates that have been enacted at the reporting date.

Deferred tax is provided for, using the liability method, on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts in the financial information. In principle, deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred tax is recognised in the Statements of Income and Expenditure.

j. Foreign Currency Transactions

In preparing the financial information of the Funds, transactions in currencies other than the Funds' functional currency (foreign currencies) are recorded in the functional currency using the exchange rates prevailing at the dates of transactions. At each reporting date, monetary items denominated in foreign currencies are translated at the rates prevailing on the reporting date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing on the reporting date when the fair value was determined.

Exchange differences arising on the settlement of monetary items and on the translation of monetary items are included in profit or loss for the year.

The principal exchange rates of foreign currency ruling at the reporting date used are as follows:

	2023 RM	2022 RM
i. United States Dollar	4.59	4.40
ii. British Pound	5.84	5.29
iii. Australian Dollar	3.13	2.99
iv. Singapore Dollar	3.48	3.28
v. Hong Kong Dollar	0.59	0.56
vi. Chinese Yuan	0.64	0.63
vii. Taiwan Dollar	0.15	0.14
viii. Philippines Peso	0.08	-
ix. Thailand Baht	0.13	0.13

k. Amounts Received from Units Created

Amounts received from units created represent premiums paid by policyholders as payment for a new contract or subsequent payments to increase the amount of that contract. Net creation of units is recognised on a receipt basis.

Notes to the Financial Information

As at 31 December 2023

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

l. Amounts Paid for Units Cancelled

Amounts paid for units cancelled represent cancellations of units arising from surrenders and withdrawals.

m. Investment Charge

Investment charge is calculated in accordance with the provisions of the policy document.

n. Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term, highly liquid investments with original maturity of three months or less that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

o. Unitholders' Account

Unitholders' account of the Funds represent equity instruments in the Statements of Assets and Liabilities.

(hereinafter referred to collectively as “the Funds”)

REPORT ON THE AUDIT OF THE FINANCIAL INFORMATION

Our opinion

In our opinion, the accompanying financial information of the Funds for the financial year ended 31 December 2023 are prepared, in all material respects, in accordance with the material accounting policies set out in Note 3 to the financial information and the Guidelines on Investment-linked Business issued by Bank Negara Malaysia.

What we have audited

We have audited the financial information of the Funds, which comprise the statements of assets and liabilities as at 31 December 2023, and the statements of income and expenditure and statements of changes in net asset value for the financial year then ended, and notes to the financial information, including material accounting policies, as set out on pages 15 to 188.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the “Auditors’ responsibilities for the audit of the financial information” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter – basis of preparation and restriction on distribution and use

We draw attention to Note 2 to the financial information, which describes the basis of preparation. The financial information is prepared to assist the Funds to meet the requirements of the Guidelines on Investment-linked Business issued by Bank Negara Malaysia. As a result, the financial information may not be suitable for another purpose. Our report is intended solely for the unitholders of the Funds as a body and should not be distributed to or used by parties other than the unitholders of the Funds. Our opinion is not modified in respect of this matter.

Independence and other ethical responsibilities

We are independent of the Funds in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

(hereinafter referred to collectively as “the Funds”)

REPORT ON THE AUDIT OF THE FINANCIAL INFORMATION (CONTINUED)

Information other than the financial information and auditors' report thereon

The Directors of Great Eastern Life Assurance (Malaysia) Berhad (“the Manager”) are responsible for the other information. The other information comprises the information contained in the Unit Funds Annual Report, but does not include the financial information of the Funds and our auditors' report thereon.

Our opinion on the financial information of the Funds does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial information of the Funds, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial information of the Funds or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors of the Manager for the financial information

The Directors of the Manager are responsible for the preparation of the financial information in accordance with the material accounting policies set out in Note 3 to the financial information and the Guidelines on Investment-linked Business issued by Bank Negara Malaysia, and for such internal control as the Directors determine is necessary to enable the preparation of financial information that are free from material misstatement, whether due to fraud or error.

In preparing the financial information, the Directors are responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Funds or to cease operations, or have no realistic alternative but to do so.

The Directors of the Manager are responsible for overseeing the Funds' financial reporting process.

Auditors' responsibilities for the audit of the financial information

Our objectives are to obtain reasonable assurance about whether the financial information of the Funds as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial information.

Independent Auditors' Report to the Unitholders of Investment-Linked Funds

(hereinafter referred to collectively as "the Funds")

REPORT ON THE AUDIT OF THE FINANCIAL INFORMATION (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial information, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial information or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Funds to cease to continue as a going concern.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

OTHER MATTERS

This report is made solely to the unitholders of the Funds, as a body, and for no other purpose. We do not assume responsibility to any other person for the content of this report.
