Time is precious when you're young and starting out in life. You work hard to build on your achievements, goals and dreams. Having the assurance that everything you've set out to achieve is well protected will give you the confidence to scale greater heights. That's why we've made lifetime protection affordable, simpler and easier for you.

GREAT Term, an affordable term insurance plan, provides coverage against death and terminal illness. It also offers the flexibility to add optional supplementary riders to cover total and permanent disability (TPD)¹ as well as early, intermediate and/or critical stage critical illness (CI)².

Why you should consider this plan?

Highly customisable coverage made affordable

Enjoy up to a lifetime of coverage for death, terminal illness and TPD¹ from as low as \$0.86* per day. For enhanced coverage, you can add optional supplementary riders to cover for up to 121 CI conditions².

Assurance to convert your policy

To meet your life's changing needs, you may choose to convert³ the term plan and its rider(s) to a life policy offering cash value in the future, regardless of your health status.

* Based on a 25 years old non-smoker male who purchases GREAT Term with TPD benefit, with a sum assured of \$300,000 and policy term 40 years. The total annual premium is \$311.95, premium amount shown is divided by 365 days, rounded up to the nearest cent.

¹ TPD benefit is an optional supplementary rider that can be added upon purchase through a Great Eastern Financial Representative.

² These critical illness riders can be added upon purchase through a Great Eastern Financial Representative.

³ Conversion privilege is applicable to GREAT Term, TPD Benefit, Complete Living Care Rider and Living Care Rider. The conversion privilege enables the riders to be converted (together with the basic plan) to a new TPD benefit or critical stage critical illness benefit offering equivalent or similar coverage (as determined by us), without evidence of insurability, provided that prevailing rules at the time of conversion are met.
