Comprehensive lifetime protection

FlexiLife comes with presumptive total and permanent disability¹ benefit which protects you against total and permanent disability throughout your lifetime. And if you are diagnosed with a terminal illness, FlexiLife has got you covered. This benefit that you will receive can provide your family with funds to cope with any loss of income, pay unexpected expenses, or even serve as your financial legacy for your loved ones.

Flexible payment terms

FlexiLife gives you the flexibility to decide a payment term that best suits you. You can choose to pay your premiums in one lump sum or opt to pay over a 20-year payment term or up to age 80 next birthday.

Protection that grows with you

With FlexiLife, your protection level can potentially increase over the years. That's because this whole life participating insurance plan accumulates cash value over time.

Enjoy additional coverage with supplementary benefits

Enhance your coverage against accidents, loss of income due to disability, critical illness or hospitalisation by adding supplementary benefits to your basic plan for a more comprehensive coverage. Here are two supplementary benefits² you could consider for your FlexiLife plan.

• Financial backup against critical illness

Get added protection with a critical illness cover that provides a lump sum payout upon diagnosis of any of the 37 covered critical illnesses such as major cancers, stroke, heart attack and kidney failure. You can also choose the benefit that extends coverage to early stage critical illnesses. The financial payout will be helpful to defray costly surgery, nursing care expenses and rehabilitation treatments.

• Continued income upon disability

Extend your coverage with a disability income benefit that provides a continuous source of income during the period of a disability. It also supplements your income should you suffer a salary reduction when you return to work in a reduced capacity.

¹Presumptive total and permanent disability benefit is covered for whole of life. Presumptive total and permanent disability is a condition where the life assured suffers from such a state of incapacity which is total and permanent and which takes in the form of:

- (a) total and irrecoverable loss of sight in both eyes; or
- (b) total and irrecoverable loss of the use of two limbs at or above the wrist or ankle; or
- (c) total and irrecoverable loss of the sight in one eye and total and irrecoverable loss of the use of one limb at or above the wrist or ankle.

²Supplementary benefit options are not applicable for the lump sum payment term.
